

The World's Largest Photo Libraries

Facebook hosts 140 billion photos, and will add 70 billion this year, according to the blog of photo-sharing site 1000memories.

Putting this in context, 1000memories made the following visualization which shows how big Facebook's library of photos are in comparison to other photo sharing sites, as well as the Library of Congress.

Incredibly, Facebook is hosting 4% of all photos ever taken, according to 1000memories. It estimates 3.5 trillion photos have been taken through history
